

## The Ed Glover Award

Ed Glover passed away in September, 2016. He bought his Dolphin 24, *Dolphin*, in the late 1990's, checking in with Jim Huxford in 1999, our first webmaster, now deceased. His email to Jim is below - excerpted

*"Dolphin" One of the first O"Day Dolphins. I bought a Dolphin 24 a couple years ago, called "Dolphin" and spent most of her life in Long Island sound, then retired to Maine. She is a sweet sailing boat, on most any point of sail.*

*She is mostly in her original state, with all varnished teak and original gelcoat. The inboard was converted to a 10HP Vetus Diesel in 1990. I re-installed the marine head with a holding tank under the starboard settee. Some of the sails appear to be original inventory and are in remarkably good condition, but has a new main, blade and cruising spinnaker*

*I do not know the hull #, have not located it on the transom or stern quarter. Any other information, advice you might have would be of interest, thanks in advance.*

*Smooth Sailing,*

*Ed Glover, Spruce Head, Maine*

*Dolphin* has been in her barn in Hope, Maine for several years. Jamie Weymouth took over her care in the Spring of 2016 and she is racing here in Camden. Below is a picture of Jamie and his best friend and business partner, Ed Glover, years ago sailing in "*Dolphin*", and with their best friend 'Jack', in hand. Jack had a hand in the decision to have an award remembering Ed.
